Guidance Notes on the Use of the Tender Document

These guidance notes have been prepared by the BDRCS to assist the Procuring Entity in the preparation, using the Standard Tender Document (STD), for the procurement of Goods and Related Services. This Document may be used for both Open Tendering Method (OTM) and Limited Tendering Method (LTM) as described in the BDRCS Procurement Manual. Moreover, the STD is suitable of framework contract. The STD is based upon internationally acceptable model formats which have been adapted to suit the particular needs of procurement within BDRCS. STD has 5 Sections, of which **Section 1: Instruction to Tenderer** and **Section 3: General Conditions of Contract** must not be altered or modified under any circumstances. The Procuring Entity addresses its specific needs through the information provided in the **Tender Data Sheet (TDS)** and the **Particular Conditions of Contract (PCC)** as well as in the detailed requirements of the procurement in the **Price and Delivery schedule of Goods & Related Services**, the **Technical Specifications & Compliance Sheet**. STD provides all the information that a Tenderer needs in order to prepare and submit a Tender. This should provide a sound basis on which the Procuring Entity can fairly, transparently and accurately carry out a Tender evaluation process on the Tenders submitted by the Tenderers.

The following briefly describes the Sections of the STD and how a Procuring Entity should use these when preparing a particular Tender Document.

Section 1. Instructions to Tenderers (ITT)

The Instruction to Tenderer (ITT) specifies the instructions and procedures that govern the tendering process. This Section also contains the criteria to be used by the Procuring Entity to determine the lowest evaluated Tender and the qualifications of the Tenderer to perform the Contract. The Instructions to Tenderer (ITT) are therefore not a part of the Contract. **The text of the clauses in this Section shall not be modified.**

Section 2. Tender Data Sheet (TDS)

The Procuring Entity shall specify in the TDS only the information that the ITT instructs to be specified in the TDS. To facilitate the preparation of the TDS, its Clause Numbers are numbered with the same numbers of the corresponding ITT Clauses.

Section 3. General Conditions of Contract (GCC)

This Section provides the General Conditions of Agreement (GCA) that shall apply to the Contract for which this Tender Document is issued. The provisions contained in this Section shall not be modified. The GCA identifies the general terms and conditions governing the Framework Agreement. However, the Contractor/Supplier shall perform the supply of Goods and related Services only upon issuance of a Requisition Slip or Call-off Order by the Procuring Entity (PE) under the Framework Agreement. No supply or contractual obligation shall arise unless such Call-off Order is issued by the PE.

Section 4. Particular Conditions of Contract (PCC)

This Section provides clauses specific to the particular Contract that modify or supplement **Section 3: General Conditions of Contract**. The Procuring Entity should include at the time of issuing the Tender Documents all possible information that the GCC indicate, shall be provided in the PCC. Its Clause Numbers are numbered with the same numbers of the corresponding GCC Clauses.

Section 5. Tender & Contract Forms
